OFFICAL IGNERANCE .- GOVERNOT Brown of Georgia, in his message to the Legislature, elaborating upon the subject of banks and backing, expresses great surprise, asserting that the thing looks very suspicious that the balance sheets of the banks should show an exact balance between the assets and liabilities, "never varying a quartor of a cent!" The Governor devotes a good deal of space to this extraordinary coincidence. He supposes it may be owing to the banks having a reserved fund which they are afmid for the people to know that they have made! and he thinks that such a fund is a part of the assets of the banks, and should be remembered when a return is made on oath!!

The papers throughout Georgia are filled with ridicule of their Governor. We presume he has not given much attention to the seignee of bookkeeping, nor, if his message be a specimen, to the study of rhotoric, of grammar, or the art of composition-his time being chiefly consumed in comprehending the veto power, which he has used freely on all occasions. THE MESSAGE ABBOAD .- The Albany Journal

makes several extracts from Gov. RANDALL's Messago, and thus speaks of it :--" The Messago of the Governor of Wisconsin to the Legislature of that State, is an exceedingly strong, clear and enlightened State Paper. It discloses, with great posspicalty, the true condition of that youtbial State. It juxposes mis-government, probes abuses and suggests needful reforms."

REFORMING REASON. The new Governor of Maryland, decidedly condemns the repeal of the Missouri Compromise, in his recent message .-This, we believe, is the first instance of a southern Governor's taking grounds against the infamous Mabraska swindle.

> THE WESTHER .- On Saturday evening a driz aly rain set in, accompanied by a dense fog, which continued almost uncessingly until yester day morning. Yesterday we had occasional gleams of sunshine through the heavy clouds, which portruded more rain.

Every particle of ice that had been left in the iver was washed out clean, and it is now entirely clear up to the dam, and we have no doubt further up the river.

on the congonial topic of the marriage of a Prussian Prince to an English Princess, our bachelor neighbour of the Wisconsin gets off the following paragraph :

It is an event of some importance—for the reason that this child of Victoria will, in all probability, be ultimately the Queen of Prussia. His father, the Prince of Prussia, is the heir to the throne—and as Frederick William is a young man of five and twenty, the chances are in favor of his accession to the cown of Prussia. There is an unintentional slur cost, in the ibove acutence, upon Queen Victoria, which, no doubt, our gallant neighbour will make haste to

THE RED PETTICOAT .- The N. Y. Tribune of Thursday last contains the following item, which will specially interest woman-kind:

Red petileoats begin to peep out in Broadway modestly, and as if half ashamed of themselves, but still sufficiently manifest to convince the world of their presence. It is curious to note the sudden change in the direction of promena-ders' eyes. The geze which lately stared fixedly at even height with ladies' faces, is now modest-If lowered upon the hem of the garment in search of the now fashion and pretty ankies. So far but few (petticoats) have appeared; but the fire is kirulled, and it needs only the breath of a lendng lashion-monger to break forth into a crimson lame which will envelop all womankind.

The red petticoat owes its introduction into fashionable life to Queen Victoria, who borrowed the idea from the Scotch peasant girls in the vicinity of Balmoral. It bids fair to become as popu lar as the Empress Eugene's invention of hooped skirts.

A Sudden Transformation The black republican party has heretefore ranked as an anti-slavery sectional party, but whether it can be classed as such hereafter, may admit of a serious doubt, in view of its recent admit of a serious doubt, in view of its recess success in Kansas. Kansas is a slave State, and the black republicans have carried it, so that they are now in full possession of a pre-slavery State Government, which, of course, divests the

Massas. Estrons:-One of the editors of the Nows, it seems, will persist in showing himself. to be a perfect legal ignorumus. And though, with an egotistical and characteristic self concair, he considers himself above the reach of criticism. his late assortions concerning the Code most conclusively prove bira to be the victim of a very orroneous opinion.

In his last article on the Code, he says, that under its provisions "women and children can soil real estate and receive money." Now I defy the editor in question to point out a single section in it, that can, by any possible contortlor of lauguage, be so construed as in any case to atthorize women to "sell real estate and receive money," where they were not proviously allowed and authorized so to do by Chapter 44 of the Acts and Resolves of the Wisconsin Legislature of 1850; and with an equal certainty, that i he attempts it, he will fail, and again prove himself a legal ignoramus. I also defy him to put his finger upon a section, or a word in the Code that can, by implication or otherwise, be understood as authorizing children, without the appointment of guardians, to dispose of "real estate and receive money," whether such authority be granted them or not, by the Statutes of Wisconsic, or by any Acts or Resolves of her Logislature since the time of their adoption .-On the subject of minors the Code is silent, with ant, by an appearance, waives the irregularity; and when a summous is defectively served, the defect is both "do juro" and "do facto," the

The editor, I think, must be ignorant of the fact that, under the old dispensation, a suit could be commenced by a declaration only, and that he declaration could be served by any one, whether clothed with the dignity, and armed with the authority of an officer of the law, or not, or his philanthropic disposition would long ago have prompted him to open the tremendous battery of his gigantic legal mind (?) upon such

barbacio dishonesty and abuse. Whether my first communication to the Sentinel was "a protonded roply to an article in the News," or whether it was an unasworable answor, any one, by referring to the two articles, can indge. It seemed to the legal ignoramus of the News (and he must have stumbled upon the conclusion, for he certainly could never have reasoned it out) that certain provisions for the service of summons should be made. By a quotation from the Code, he was put in possession of the fact that such provisions not only existed, but were actually in force. It is evident that sut up in a large amount, to secure the passage the ambitions writer is treading on by him well of the Wiscousin Land Bill through that Conthe ambitious editor is treading on, by bim, un explored ground, and it would seem much more shape of a contingency, in a manner calculated modest and becoming in him to confine himself to reader them most effective for the accomplishto his proper sphere of action, instead of criticising a legal practice and proceeding that has received the sanction of, and been adopted by about two-thirds of the States of the Union, and concerning which he is most ridiculously ignorest. He is eminently successful and perfectly at home in fabricating bombustic election returns, thereby causing divers good democrats and friends of the News to lose money by trusting too implicitly in his statements. But the moment he steps out of his sphere he is lost, and reminds one very forcibly of a second edition of the " Babes in the Woods," bound in calf. His parsonal allusions I do not at all understand, and if I did, I would come in under the Godz, and strike it out as "redundant and irrelevant" to the point in issue.

A Southern View of the Kansas Ques-tion.

Wassington, Sunday, Jan. 10, 1858.

There is a general relling over of things in Washington, and it is difficult to see the light. Washington, and it is difficult to see the against the Kansas, Utah and Nicaratigua imbroglice are condensed together, and they are producing a goueral chaos. The fillibuster and Utah matters, however, may be put aside for the moment, ex-cept so far as they become entangled in their ac-tive influences with Kansas. The great question now pressing upon public men here, is the admis-sion of Kansas under the Lecompton Constitu-tion. The struggle upon this point will be bitter and desporate It is clear that Kansas can only and desporate It is clear that Kausas can only be admitted through the active and determined support of the Administration, and but for this the President would have been more roughly handled in the late debate, both in the House and Senate, upon the connection of the Administration with the unlawful capture of General Walkary when the soil of Nieszaugua by Commoders er upon the soil of Nicaraugua by Commodore alding. The Administration is now weak, and the Southern men are very anxious to strengthen it, so at to make its efforts in behalf of the admission of Kansas under the Lecompton Consti-tution, more influential. This will account for

their ignoring other issues in which and their ignoring other issues in which and the result was that the problem of things is strange. Mr. Buchanan has been fighting against the South all Summer in resolute and desperate efforts to make Kansas a Free State, and Judgo Douglas has been siding with the South in insisting upon the logality of the acts of the Territorial Legislature, and upon the sovereignty of the Convention.—

And now, what a change of position between them! Mr. Buchanan is with the South, and Judge Douglas is with the Black Republicans. Both Douglas is with the Black Republicans. Judge Douglas, last Summer, in his speech at Springfield, urged the sovereignty of the Conven-tion, and its right to determine absolutely upon the Constitution of Kansas. His change is ex-plicable. Free-solism is cominguous at the North, and the admission of Kansas with a Pro-Slavery Constitution will be the destruction of the Demo-cratic Party. As one of its leaders he will fal waters of the Heliespont, he would not be more to our honor, and glory, and interest, so to do. The complacency with which they talk of this to put their standard in his hands—the South will not touch him—and the Administration will fight him. The defection of Douglas has done more to shake the confidence of the South in Northern men, than everything that has happened before. If he proved false, whom can you trust? The saie took place last Saturday, up to which time; the "Shades" were under the charge of a constable named Quian, living on the West Side, until everything was settled satisfactorily.

After the sale, Quian and his friends, among whom we e several wags, resolved to have a little fun with Huggins, and the result was that Quinn appeared to consider himself, insulted by some remarks of Huggins, and nothing would do ties. In the meantine, heavy bets were being made—\$600 to \$100 that Huggins would kill his man, all of which were freely taken. At the first fire, Quinn fell mortally wounded, at which Huggins made off as last as his legs could carry him, frightened almost to death. In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in rejeving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother
